Press Release

Our Story

MiniMarieTea was founded and created in 2016 by Marie's mom Isabelle.

Being madly in love with her kids, herbs and tea, she cherishes the after school tea time with her toddlers. This was how she noticed the lack of infusions she could give her kids with a clear conscience.

She started her own company to create healthy and fun additives for water: Happy Bags

Here's her [blog](#) and [IG account](#) about the start up of Happy Bags, the mothership of MiniMarieTea.

With MiniMarieTea we hope to make drinking water fun and contribute to a better world with less obesity and more tea time.

We believe that great infusions don't need to be sweetened. This way, all of nature's wonders can be tasted to the fullest.

Unique Ingredients

At MiniMarieTea we create the things we wish existed.

The things that make MiniMarieTea unique are endless.

It's a tea **made especially for kids** and the whole family.

No theine. No added sugars. No added flavors. Just pure dried fruits, flowers and herbs. All organic.

These **ingredients and blends are unique.** Cultivated with great care by the best **certified organic farmers.** Assembled with love by Marie's mum.

The premium collection loose leaf bags contain **tea flowers.** So pretty, healthy and tasty. Extra fun for the kids to watch the infusion brew away.

The boxes are filled with **the best tea bags. Unbleached** and **extra large** (tea for two-bags). Just **one tea bag** is needed **for two cups.** Perfect to emphasize the cosiest moment of the day.

All blends can be savoured **cold brewed** too. Just let the infusion brew overnight in a bottle in the fridge. Please read "tips" if you would like more information on how to brew the perfect MiniMarieTea.

Classic Collection

The MiniMarieTea Classic Collection is available the whole year through.

*The ingredients of the Classic Collection meet the **same high quality standards** as the Premium Collection and are also harvested by **the best organic certified farmers**.*
